PROFILE

Experienced UI/UX Designer specializing in designing mobile apps and websites. My passion lies in creating intuitive, user-centered designs that not only look appealing but also make the user's interaction smooth and enjoyable. I work through the entire design process, from understanding user needs and creating wireframes to building interactive prototypes and refining designs based on feedback. I enjoy collaborating with developers, product managers, and other teams to ensure that the final product aligns with both user requirements and business objectives. With a strong eye for detail and a focus on user experience, I strive to deliver designs that enhance usability and engagement.

EXPERIENCE

UI UX Designer 2024
Brainstormer Technologies

As a UX/UI Designer at Brainstormer Technologies, I specialize in creating intuitive and visually appealing designs for both mobile applications and web platforms. My focus is on delivering user-centered designs that enhance the overall user experience. I collaborate closely with cross-functional teams to ensure that the design aligns with business goals while maintaining a seamless and engaging interface.

UI UX & Graphic Designer 2023
Plan Alpha

My role included designing user-friendly interfaces for websites and mobile apps, as well as creating graphics for various projects. I worked on improving the look and feel of designs while making sure they were easy to use. I collaborated with teams to meet project goals and create effective visual solutions.

Intern Graphic Designer 2023
Premier Business Solution Group

During my time at Premier Business Solutions Group, I provided graphic design support by creating promotional materials, event banners, and social media graphics. Collaborating closely with the foundation's team, I gained insight into their vision and objectives, delivering designs that met their needs.
